TEMPLO® EyeMotion

Move. Analyse. Improve.

# TEMPLO® EyeMotion - The mobile video feedback system

| TEMPLO® EyeMotion is a unique combination of one highspeed camera and a tablet |

- **Live:**
  - Observe through another perspective in real time
  - Improve your movement instantly
- **Live delay:**
  - Provide instant feedback by delayed live view
  - Define delay settings to your feedback application
- **Record:**
  - Record relevant actions from the past
  - Discuss recorded videos during the session
- **Analysis:**
  - Store videos and analyse later in detail
  - Analyse the video in slow-motion
  - Use graphic tools in the video

## | BENEFITS |
